

Governor Francis Farms Garden Club

Founded in 1952

Spring 2010

Dear Neighbor,

We would like to appeal to the civic pride of the residents of Governor Francis Farms. For 43 years, the Garden Club has had the responsibility of maintaining the rotaries, islands and entrances to our neighborhood. Our main focus is to maintain and beautify six common areas enjoyed by all.

Our members (currently 20) plant and help to improve these areas. We donate our time and labor and, with the help of a landscaper, focus on giving back to our community.

Expenses for 2009 including landscaping (weekly cutting and clean-ups) and purchasing bulbs and mums: \$4,058.98

Our 2009 income from donations: \$4,050.00

Many residents assume these areas are cared for by the City of Warwick.

Only with your support may we fund the basic upkeep and continue funding special beautification projects. A tax-deductible donation no matter how small will help cover the cost of maintaining our common areas. Remember this is **100% TAX-DEDUCTIBLE!** Please send your check payable to Governor Francis Farms Garden Club to our treasurer in the enclosed self-addressed envelope.

Please consider joining us as a club member and/or helping with our planting projects. We welcome your interest and participation. For more information, comments or suggestions please call Marilyn Blanche.

We thank you in advance for your generosity and support.

Sincerely,

Marilyn Blanche 463-3421
